## **I-15/Sahara Avenue Project Wins Top Award**

The Nevada chapter of the American Public Works Association has given NDOT top honors in the Major Project of the Year competition for the I-15/Sahara Avenue Interchange reconstruction. The interchange project was completed two years ago.

Chris Petersen was the designer on the project and Glenn Petrenko was the project coordinator.

The project included reconstructing the I-15 bridge at Sahara Avenue and widening the street to 12 lanes. Along with increasing the number of lanes, various other improvements were made, including ramp reconstruction and installation of sound walls. The interchange project was coordinated with the city of Las Vegas, which completed major drainage improvements within the same area.

The Sahara project included more than 17 acres of concrete paving, 585,000 tons of asphalt, nearly five miles of barrier rail and more than a mile of drilling for the concrete piles. Construction lasted 460 working days at a cost of \$33.7 million.

Nominated projects are evaluated on the basis of service to the public, community need, intricacy of design, aesthetic consideration, difficulty of construction, change orders, and financial background.

**ON STATE FUNDED PROJECTS:**

On State funded projects Contractors and subcontractors are required to hold a valid contractor's license of a class corresponding to the work to be done, in accordance with the provisions of NRS Chapter 624, prior to submitting a bid.

The bidder's attention is directed to the provisions of NRS 338.147 which is summarized as follows: A responsible bidder who at the time of submitting his bid provides a copy of a certificate of eligibility to receive a preference in bidding on public works, issued to him by the State Contractor's Board, shall be deemed to have submitted a better bid than a competing bidder who has not provided a copy of such a valid certificate of eligibility if the amount of his bid is not more than 5% higher than the amount bid by the competing bidder.

**ON FEDERAL AID PROJECTS:**

On Federal-aid projects Contractors, prequalified by the Nevada Department of Transportation, and subcontractors are not required to be licensed in advance of submitting a bid or having such bid considered. Both Contractors and subcontractors shall obtain a valid contractor's license, in accordance with the provisions of NRS Chapter 624, within 20 days after the contract has been awarded. Execution of the contract by the Contractor shall be deemed a certification that the licensing requirements have been met. Contractors and subcontractors are encouraged to submit applications for licensure to the Nevada State Contractor's Board in advance of contract advertisement.

The Contractor agrees to ensure that disadvantaged business enterprises as defined in 49 CRF, Part 26 Amended have the maximum opportunity to participate in the performance of the contracts and subcontracts financed in whole or in part with Federal funds. The requirements for compliance are contained in subsection 102.03 and 103.02 of the Special Provisions and in the contract provisions appended to the Special Provisions.
