

Welcome to the Nevada Department of Transportation's Annual Traffic Report on the World-Wide-Web. This report contains a ten-year history (if available) of Annual Average Daily Traffic at statewide count locations. To reference these locations, proceed to the next page where you will find maps with the available sites. The locations are depicted in red with a station identification number. You will use this station identification number to reference the Table 3 section, which follows the maps.

Located on the left side of the report in the Table 3's, you will find the station identification number zero-filled to the fourth digit. See example below:

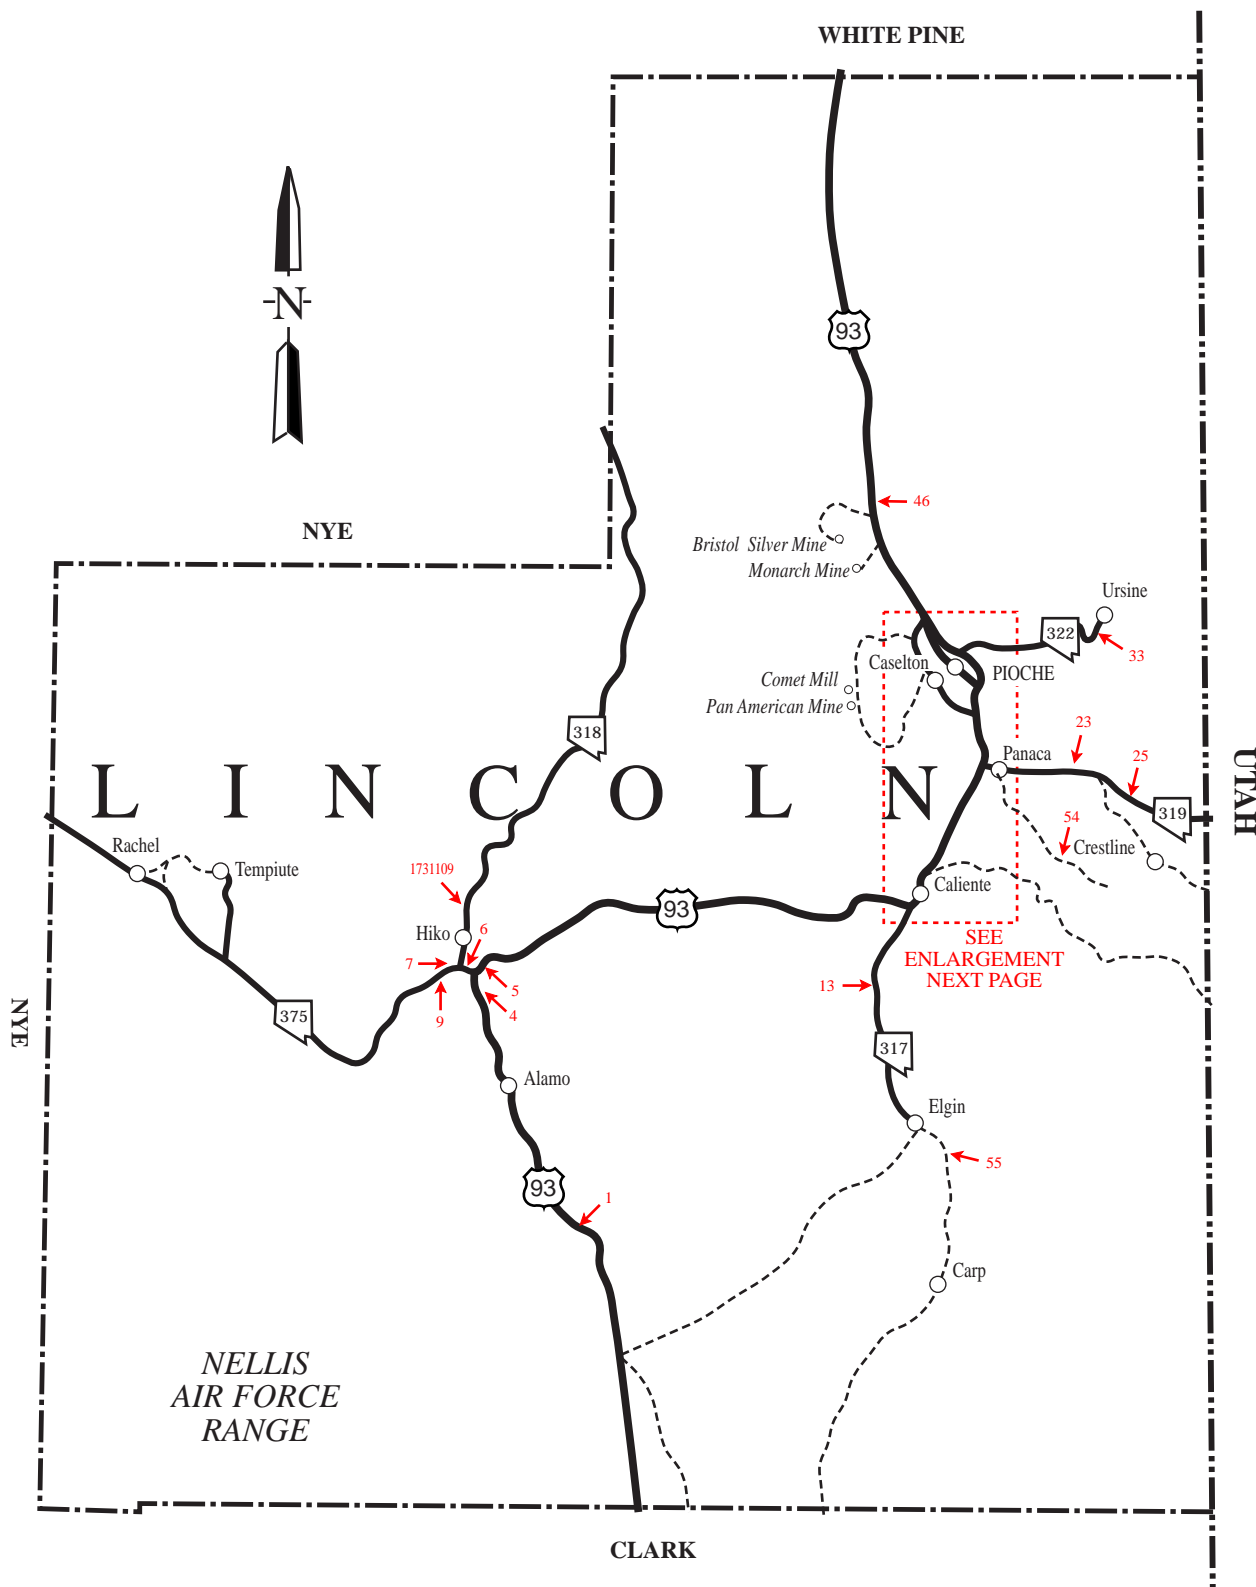

Example: station number 1 is 0001

 station number 33 is 0033

 station number 114 is 0114

If the station identification number is seven digits long, this is a continuous count location and will have to be referenced in the ATR's (Automatic Traffic Recorder's) section. The ATR section can be found at the beginning of the report, where the counties are listed.

All sites are listed in numeric order with a description of where the count was actually taken.

CALIENTE - PIOCHE

LINCOLN COUNTY
