1 **1.0 INTRODUCTION AND GENERAL INFORMATION**

2 The Nevada Department of Transportation (the “Department”) is pleased to present this Request
3 for Qualifications (the “RFQ”) to prospective Design-Build teams (the “Proposers”) interested in
4 submitting a Statement of Qualifications (a “SOQ”) for the design and construction of the Reno
5 Early Action Project (the “Project”). The successful Proposer will enter into a contract with the
6 Department to design and construct certain capital improvements (the “Contract”).

7 As depicted generally on Figure 1 and in more detail in Appendix C, the Project’s purpose is to
8 improve a 2-mile segment of I-580/US-395 from just north of the I-80/I-580 system interchange to
9 Villanova Drive by:

- 10 A) Increasing highway capacity and improving traffic operations;
- 11 B) Expanding the existing highway infrastructure to be compatible with future long-term
- 12 corridor needs;
- 13 C) Improving the conditions to the existing highway infrastructure; and
- 14 D) Enhancing highway safety features to help reduce crash frequency and severity.

15
16 **Figure 1: General Project Limits for REAP**

17 SOQs will only be accepted from Proposers on behalf of Design-Build teams intending to provide
18 all services required under the Contract and that are capable of obtaining the required bonding

1 for the Project. Responses from individual engineering, construction, or consultant firms not
2 offering to provide all required services will not be accepted. The prime contractor of the Design-
3 Build team must use its own workforce to construct at least thirty percent (30%) of the Project
4 pursuant to Nevada Revised Statutes (“NRS”) Section 408.3886(8)(b). The Department may elect
5 to increase this percentage of utilization at the time of the RFP release. Short-Listed Proposers
6 (contractors and joint ventures [“JVs”] made up of contractors) are required to complete the
7 Department’s prequalification process pursuant to NRS 408.333 before a Short-Listed Proposer
8 will be eligible for receipt of a draft Request for Proposal (the “RFP”).

9 The National Environmental Policy Act (NEPA) process is being performed for the Project, and
10 the anticipated completion of the process will occur in November 2018. The Department will obtain
11 the necessary approvals for environmental clearance.

30 **1.11 Quality Control (QC)/Quality Assurance (QA)**

31 The Design-Builder will be required to plan, implement, and provide a QC program for the Work.
32 This program shall be developed by the Design-Builder using International Organization for
33 Standardization ("ISO") 9001 standards.

34 The Design-Builder's QC program must follow the requirements of 23 CFR Part 637 and the
35 Contract Documents. The Department will review the Design-Builder's program to assure that it
36 meets guidelines and minimum requirements established by the Department. Department
37 approval of the program will constitute the Department's agreement that it meets these criteria,
38 but the Design-Builder shall maintain ownership of the program, shall be fully responsible for its
39 execution, and shall maintain sole responsibility for the quality and workmanship of the Work.

1 The Department may establish and maintain its own QA and/or an independent QA organization
2 to oversee and/or perform quality audits of i) the Design-Builder's management, design,
3 construction, and maintenance activities; ii) the Design-Builder's QC procedures; iii) the Design-
4 Builder's Verification Sampling and Testing process; and iv) the quality of the final product.

5 **1.12 Insurance, Indemnification, Bonding, Licensing, and Securities**

6 The Design-Builder shall provide specified insurance, including professional liability insurance
7 that covers design, project management, and construction management. The Department
8 anticipates that the Contract will require the Design-Builder to indemnify, defend, and hold the
9 Department harmless against third party and other claims as specified in the Contract. Specific
10 requirements for the insurance and indemnification will be set forth in the RFP and the Contract.

11 Proposers on the Short-List submitting a Proposal shall provide Proposal bonds to the
12 Department in the amount shown in Section 4.4.1.3. The Design-Builder will be required to
13 provide performance and payment bonds and/or other security acceptable to the Department in
14 the forms and amounts set forth in the RFP.

15 Prior to Contract execution, all Persons participating in this procurement and/or the Contract must
16 obtain all licenses, certificates, and permits and take all necessary steps to conduct business in
17 the State and perform the Work required under the Contract, including proposing and carrying out
18 contracts consistent with State laws; provided, however, that Proposers (contractors and joint
19 ventures ["JVs"] made up of contractors) complete the Department's prequalification process
20 pursuant to NRS 408.333 as described in Section 1.0.

21 Where applicable, Design-Builder may also be required to provide a number of other
22 commitments including the following:

- 23 A) Parent company and other guaranties;
- 24 B) Statements of joint and several liability by the Principal Participants;
- 25 C) Parent company securities; and
- 26 D) Warranties.

27 **1.13 Rules of Contact**

28 The following rules of contact shall apply during the procurement for the Project, effective as of
29 the date of issuance of this RFQ through the execution of the Contract. These rules are designed
30 to promote a fair, competitive, and unbiased procurement process. Additional rules or
31 modifications to these rules may be issued by the Department in connection with the draft RFP
32 process and in the RFP. Contact includes face-to-face, telephone, facsimile, electronic-mail (e-
33 mail), or written communication, either directly or indirectly by an agent, representative, promoter,
34 or advocate of a Proposer.

35 The specific rules of contact are as follows:

- 36 A) After issuance of the RFQ, no Proposer or any of its team members may communicate
37 with another Proposer or members of another Proposer's team with regard to the Project
38 or the SOQs, except that a Proposer may communicate with a Subcontractor that is on
39 both its team and another Proposer's team, so long as those Proposers establish a
40 protocol to ensure that the Subcontractor will not act as a conduit of information between

1 the teams. (Communications among Proposers and team members are allowed during
2 Department-sponsored meetings.)

3 B) Contact between the Proposers and the Department (questions and responses to
4 questions) shall only be through the Department's and Proposer's Authorized
5 Representatives. The Department's Authorized Representative is Doug Benamati at
6 DBenamati@dot.nv.gov in Agreement Services.

7 C) Commencing with the issuance of this RFQ and continuing until the earliest of i) award
8 and execution of the Contract, ii) rejection of all Proposals by the Department, or
9 iii) cancellation of the procurement, no Proposer or representative thereof shall have any
10 ex parte communications regarding the RFQ, RFP, Contract, or procurement described
11 herein with:

12 a. Any member of the Department, including members of the Department of
13 Transportation Board of Directors; and

14 b. Any Department staff, advisors, contractors, or consultants involved with the
15 procurement (including those referenced in this Section 1.13 and in Section 1.18)
16 except for communications expressly permitted by the RFQ or RFP, or except as
17 approved in writing in advance by the Department, in its sole discretion. The
18 foregoing restriction shall not, however, preclude or restrict communications with
19 regard to matters unrelated to the RFQ, RFP, Contract, or procurement or to limit
20 participation in public meetings or any public or Proposer meeting related to the
21 RFQ or RFP. Any Proposer engaging in such prohibited communications may be
22 disqualified at the sole discretion of the Department.

23 D) The Proposers shall not contact the following identified stakeholders regarding the Project,
24 including employees, representatives, members, consultants, and advisors of the entities
25 listed below. The Department shall provide any necessary coordination during the RFQ
26 stage with such entities in order that, among other things, the procurement is implemented
27 in a fair, competitive, and transparent manner and with uniform information:

28 a. The Nevada Highway Patrol;

29 b. U.S. Department of Transportation (USDOT) Secretary's Office;

30 c. USDOT Innovative Program Office;

31 d. The Federal Highway Administration (FHWA);

32 e. U.S. Army Corps of Engineering (USACE);

33 f. Regional Transportation Commission (RTC) of Washoe County;

34 g. Washoe County;

35 h. City of Reno;

36 i. City of Sparks;

37 j. RSIC;

38 k. Union Pacific Railroad (UPRR);

39 l. Environmental, regulatory, and permitting agencies; and

40 m. Utility companies.

41 Information requests concerning these entities shall be sent to the Department's Authorized
42 Representative.

- 1 E) Any contact determined to be improper, at the sole discretion of the Department, may
2 result in disqualification.
- 3 F) Any official contact regarding the Project will be disseminated from the Department on
4 Department letterhead. Any official contact will be in writing and signed by the
5 Department's Authorized Representative.
- 6 G) The Department will not be responsible for any oral communication or any other
7 information or contact that occurs outside the official communication process specified
8 herein.

9 **1.14 Proposer Questions**

10 The Department will consider questions submitted in writing by the Proposers regarding the RFQ,
11 including requests for Clarification and requests to correct errors. Such comments/questions may
12 be submitted at any time prior to the applicable date specified in Section 2.2, but must (a) be
13 submitted electronically in writing in Microsoft Word format using the form set forth in Form T; (b)
14 identify the requestor's name, address, telephone number, e-mail address, fax number, and the
15 Proposer he/she represents; (c) be sequentially numbered; (d) identify the document and the
16 relevant section number, page number, and line number (e.g., RFQ, Section 1.14, page 13, line
17 8) or, if it is a general question, indicate so; (e) not identify the Proposer's identity in the body of
18 the question or contain proprietary or confidential information. Every Form T must be submitted
19 electronically to agreeservices@dot.nv.gov

20 Only written requests submitted as indicated above will be considered. No oral requests will be
21 considered, and no requests for additional information or Clarification to any other Department
22 office, consultant, employee, or the FHWA will be considered.

23 Only requests received by 3:00 p.m., local time, on the date specified in Section 2.2 will be
24 addressed.

25 A response to questions will be in writing and will be issued without attribution and sent to all
26 recipients of this RFQ no later than the date specified in Section 2.2.

27 **1.15 RFQ Addenda**

28 If necessary, the Department will issue Addenda to modify conditions or requirements of the RFQ
29 to recipients of this RFQ. At this time, the Department anticipates that any Addenda will be issued
30 on or before the date specified in Section 2.2, but the Department reserves the right to issue an
31 Addendum at any time before the due date of the SOQ.

32 **1.16 Notification of Firms on the Short-List**

33 Each Proposer will be notified in writing via e-mail and a hard copy letter whether or not it has
34 been selected for the Short-List. Notifications will be post-marked no later than the date specified
35 in Section 2.2.

36 **1.17 Costs**

37 Proposers are solely responsible for all costs and expenses of any nature associated with
38 responding to the RFQ, attending meeting(s), providing supplemental information, and all
39 subsequent costs and expenses.

1 **1.18 Ineligible Firms and Organizational Conflicts of Interest**

2 It is the Department's policy that any person or firm under contract, or previously under contract
3 with the Department to prepare procurement documents, preliminary plans, planning reports, or
4 other project development products for the Project, will not be allowed to participate in any
5 capacity on a Proposer team. Exceptions to this policy may be granted by the Department, upon
6 written request from such person or firm, if it is determined that the person or firm's involvement
7 is in the best interest of the public and does not constitute an unfair competitive advantage.
8 Proposers seeking such exception for any proposed team member shall submit such written
9 request as soon as possible (optimally by June 20, 2018) because the Department shall not
10 extend the SOQ due date or be responsible for any inability or failure to respond prior to the SOQ
11 due date to any such request.

12 In addition to the foregoing, the organizational conflict of interest rules found in 23 CFR Part 636,
13 Subpart A, including 23 CFR 636.116, also apply to this procurement. 23 CFR 636.103 defines
14 an "organizational conflict of interest" as follows:

15 *"Organizational conflict of interest means that because of other activities or relationships*
16 *with other persons, a person is unable or potentially unable to render impartial assistance*
17 *or advice to the owner, or the person's objectivity in performing the contract work is or*
18 *might be otherwise impaired, or a person has an unfair competitive advantage."*

19 The Proposer shall provide information concerning organizational conflicts of interest and disclose
20 all relevant facts concerning any past, present, or currently planned interests that may present an
21 organizational conflict of interest. The Proposer shall state how its interests or those of any of its
22 team members, consultants, contractors, or subcontractors, including the interests of any chief
23 executives, directors, or Key Personnel thereof, may result in, or could be viewed as, an
24 organizational conflict of interest.

25 The Proposer is prohibited from teaming with, receiving any advice from, or discussing any aspect
26 relating to the Project or the procurement of the Project with any person or entity with an
27 organizational conflict of interest, including, but not limited to:

- 28 A) CH2M Hill,
- 29 B) Jacobs Engineering Group,
- 30 C) NOSSAMAN,
- 31 D) Avenue Consultants,
- 32 E) Lage Design,
- 33 F) Bednar Industries,
- 34 G) Civil FX,
- 35 H) Melchert Consulting,
- 36 I) Golder Associates, and
- 37 J) Affiliates (including parent companies, subsidiary companies, Persons under common
38 ownership, JV members and partners, and other financially liable parties for a Person) of
39 any of the above.

40 Such persons and entities are also prohibited from participating on a Proposer team as a
41 contractor, subcontractor, consultant, or subconsultant.

1 By submitting its SOQ, each Proposer agrees that, if an organizational conflict of interest is
2 thereafter discovered, the Proposer must make an immediate and full written disclosure to the
3 Department that includes a description of the action that the Proposer has taken or proposes to
4 take to avoid or mitigate such conflicts. If an organizational conflict of interest that the Proposer
5 knew, or should have known about, but failed to disclose is determined to exist during the
6 procurement process, the Department may, at its sole discretion, disqualify the Proposer. If an
7 organizational conflict of interest that the Proposer knew, or should have known about, but failed
8 to disclose exists, and the Proposer has entered into a Contract as the Design-Builder, the
9 Department may, at its sole discretion, terminate the Contract. In either case, the Department
10 reserves all legal rights and remedies.

11 Proposers are also advised that the Department's guidelines in this RFQ are intended to augment
12 applicable federal and State law, including federal organizational conflict of interest laws and
13 rules, in addition to the laws and rules relating to the National Environmental Policy Act. Such
14 applicable law will also apply to Proposer teams and teaming and may preclude certain firms and
15 their entities from participating on a Proposer team.

16 **1.19 Optional One-on-One Meetings**

17 One-on-one meetings with firms that are capable of leading proposer teams for the Project are
18 optional and will be held by appointment on or about June 6, 2018, at:

19 NDOT District 2 Conference Room
20 310 Galletti Way
21 Sparks, Nevada 89431

22 To schedule a one-on-one meeting, firms should contact Doug Benamati at
23 DBenamati@dot.nv.gov by the deadline listed in Section 2.2.

24 The one-on-one meetings are subject to the following rules:

- 25 A) The meetings are intended to provide Proposers with a better understanding of the Project
26 and Project-related documents or communications provided by the Department.
- 27 B) The Department will not discuss with any Proposer any information submitted as part of
28 this procurement (including other Proposals or other Proposers' Alternative Technical
29 Concepts).
- 30 C) Proposers shall not seek to obtain commitments from the Department in the meetings or
31 otherwise seek to obtain an unfair competitive advantage over any other Proposer.
- 32 D) No aspect of these meetings is intended to provide any Proposer with access to
33 information that is not similarly available to other Proposers. Accordingly, material
34 information about the Project or procurement that the Department reveals or discusses in
35 response to questions raised in a one-on-one meeting will, except as provided in this RFQ,
36 be revealed to the other Proposers.
- 37 E) The discussions or any statements made by either party in one-on-one meetings shall not
38 be binding on such Person.
- 39 F) No part of the evaluation of SOQs will be based on the conduct or discussions that occur
40 during one-on-one meetings.

41 Persons attending the one-on-one meetings will be required to sign an acknowledgment of the
42 foregoing rules at each meeting.

1.20 Organizational and Confidentiality Requirements

The Department has established the following organizational and confidentiality requirements:

- A) Only prospective Proposers that are capable of completing the Project in its entirety will be eligible for the Short-List.
- B) Each of the following circumstances shall be deemed an organizational conflict of interest disqualifying the affected Proposers:
 - a. Participation by any of the following Persons on more than one (1) Proposer team: a Principal Participant or Major Participant; or
 - b. Participation of an Affiliate of any Person identified above in Section 1.20.B.a on another Proposer's team.
- C) All Proposers affected by the organizational conflict of interest will be disqualified, even if the Person or Affiliate causing the conflict is intended to have a different or lesser role than that described above. Firms serving solely as an environmental coordinator or public information coordinator may be on multiple teams.
- D) It is a requirement of the Department that Proposer organizations, including Principal Participants, Major Participants, and Key Personnel identified in the SOQ remain intact for the duration of the procurement process, including the subsequent Contract. A Proposer may propose substitutions for participants after the SOQ submittal; however, such changes will require written approval by the Department, which approval may be granted or withheld in the Department's sole discretion. Requirements for proposed changes in the organization of Key Personnel will be set forth in the RFP. Requests for changes in any of the Principal Participants or Major Participants will be particularly scrutinized.
- E) The Proposer may be given access to records that are confidential under State laws solely for the purpose of performing the required services under the Contract. The Proposer shall be required to sign a nondisclosure statement prior to its receipt of such documents, obligating each employee, agent, or Subcontractor of the Proposer not to make inappropriate use of or improperly disclose any of the contents of such documents.
- F) The Proposer must meet all legal, financial, and SOQ responsiveness along with the pass/fail requirements listed in Section 3.3.1.

1.21 Proposal Stipend

The Department will provide a stipend to Proposers on the Short-List. The stipend will be in the maximum amount of \$100,000.00. Specific details regarding i) the maximum stipend amount to be paid out by the Department, ii) a Proposer's eligibility to receive a stipend, iii) the timing of stipend release to eligible Proposers, and iv) the terms of stipend acceptance will be described during the RFP phase of the procurement.

1.22 Bidder's Preference

The Project does include federal-aid funding. Therefore, the bidder's preference provided pursuant to NRS 408.3885(2) and NRS 408.3886(2) will not apply.

1.23 Federal Requirements

Potential Proposers are advised that the RFP and Contract Documents will be prepared based on the assumption that the Project will be eligible for federal-aid funds. Therefore, the

1 procurement documents and Contract Documents will conform to the requirements of applicable
2 federal law and FHWA regulations, including Davis Bacon wage rates, Buy America requirements,
3 Title VI of the Civil Rights Act of 1964, as amended, regarding Equal Employment Opportunity
4 (EEO) and Title 49 Code of Federal Regulations Part 26, as amended, regarding DBEs. The
5 Department reserves the right to modify the procurement process described herein to address
6 any concerns, conditions, or requirements of FHWA. Proposers shall be notified of any such
7 modifications as provided in Section 1.15.

8 **1.24 Disadvantaged Business Enterprise (DBE) Program and Equal** 9 **Employment Opportunity**

10 **1.24.1 Policy**

11 The Department is an equal employment opportunity employer. The Department shall not
12 discriminate on the basis of race, color, national origin, or sex in the award and performance of
13 any USDOT-assisted contract or in the administration of 49 CFR Part 26. The Proposers shall
14 take necessary and reasonable steps to ensure that businesses owned and controlled by socially
15 and economically disadvantaged individuals are provided with a fair opportunity to participate in
16 the Project.

17 **1.24.2 DBE Participation Goal**

18 The Department has adopted a DBE program to provide DBEs the opportunity to participate in
19 the business activities of the Department as service providers, vendors, contractors,
20 subcontractors, advisors, and consultants. The Department has adopted the definition of DBEs
21 set forth in 49 CFR 26.5. The Proposers' DBE compliance obligations for the Project shall be
22 governed by all applicable federal DBE regulations, including 49 CFR Part 26, as well as
23 applicable requirements set forth in the Contract Documents and the Department's DBE
24 Permanent Program Plan.

25 The Department has determined that DBE requirements apply to both the design and construction
26 of the Project. The Department's DBE participation goal is under consideration and will be
27 provided in the RFP. Compliance with 49 CFR Part 26 shall be as set forth in this Section 1.24.

28 **1.24.3 Equal Employment Opportunity**

29 In connection with this RFQ and the Contract, Proposers shall not discriminate against any
30 employee or applicant for employment because of race, creed, color, sex, national origin, age,
31 disability, or marital status. Proposers shall take affirmative action to ensure that all applicants are
32 treated fairly during employment without regard to their race, creed, color, sex, national origin,
33 age, disability, or marital status. Such action shall include, but not be limited to, the following:
34 layoff or termination, rates of pay or other forms of compensation, and employment, job
35 assignment, upgrading, demotion, transfer, recruitment/recruitment advertising, and selection for
36 training, including apprenticeship, pre-apprenticeship, and/or on-the-job training.

37 **1.25 Compliance with Applicable Laws**

38 In connection with this RFQ and the Contract, Proposers shall comply with all applicable laws in
39 all aspects in connection with the procurement process of this Project and the performance of the
40 Contract.

1 **2.0 PROCUREMENT PROCESS**

2 **2.1 Overall Procurement Process**

3 The procurement process of the Contract will be in accordance with NRS 408.3875 through NRS
4 408.3888, inclusive, and the NDOT Pioneer Program Guidelines (except as otherwise set forth in
5 this RFQ or the RFP) using “best value” as the basis of selection. The intent of the Department is
6 to award the Contract to the Proposer that provides a Proposal with the best combination of scope,
7 price, quality, and schedule.

8 The procurement process will include the following two steps:

9 A) The RFQ step (determination of the Short-List); and

10 B) The RFP step (selection of a Design-Builder from the Proposers on the Short-List that
11 submitted responsive Proposals).

12 Evaluation of the SOQs and Proposals will be based on information submitted in the SOQs and
13 Proposals, or otherwise available to the Department. Pass/fail along with quality and technical
14 evaluation factors will be present in both the RFQ and RFP phases, respectively.

15 **2.1.1 RFQ Step**

16 SOQs submitted in response to this RFQ must include a response to each pass/fail and quality
17 evaluation factor. Proposers are not required to undertake any design work in order to respond to
18 this RFQ.

19 The Short-List of Proposers that will be invited to submit Proposals will be determined based on
20 an evaluation of both the pass/fail and quality evaluation factors set forth herein. This RFQ sets
21 out what is required during the RFQ step of the procurement. (Section 4.0 and Appendix A list the
22 SOQ submittal requirements.)

23 Following the SOQ evaluations, the Department will determine the Short-List. Proposers on the
24 Short-List will then be invited to provide Proposals. The Department will also provide the Short-
25 Listed Proposers access to a secure online data room that will include information necessary for
26 submitting Proposals. The address and procedures for the data room will be provided to the Short-
27 Listed Proposers coincident with the announcement of the Short-Listed Proposers.

28 **2.1.2 RFP Step**

29 The RFP will provide further specific instructions to Short-Listed Proposers on i) information
30 required to be submitted, ii) the evaluation factors, iii) information on the scope and price
31 proposals, and iv) the objectives and requirements for evaluation of the Proposals. The RFP will
32 solicit scope, price proposals, and technical submissions from the Short-Listed Proposers. The
33 above-noted proposals and technical submissions included in each Proposal will be evaluated
34 based on the evaluation factors set forth in the RFP.

35 The relative weighting of scope, price, and technical submittals in the selection of the successful
36 Proposer will be set forth in the RFP. At this time, the Department anticipates a Contract amount
37 of approximately \$135 million to \$165 million, which includes an anticipated design cost between
38 \$7 million and \$11 million and an anticipated construction cost between \$127 million and \$155
39 million. Best value will be determined based upon the proposed scope of work, price, schedule,
40 quality, and other factors with guidelines defined in the RFP.

1 **2.2 Procurement and Anticipated Project Schedule**

2 The following represents the current schedule for the Project. As the Project develops, the
 3 schedule is subject to change, and changes to the schedule may be done at the sole discretion
 4 of the Department. Proposers will be notified of any change by an Addendum to the RFQ.

3.0 EVALUATION PROCESS FOR THE SOQ

3.1 Evaluation Objectives

The objective of the RFQ step is to create a Short-List of three (3) to five (5) of the most highly qualified Proposers with the general capability (technical, financial, and management) and experience necessary to successfully undertake and complete the Work. The Department has set high responsibility standards for the Design-Builder as reflected in the quality evaluation factors of this RFQ and as will be reflected in the RFP and the Contract. Neither the overall ratings nor the ranking of the Proposers on the Short-List will be disclosed to the Proposers during the procurement process. Proposals submitted in response to the RFP will be evaluated without any reference to the results or rankings of the SOQs.

Specific objectives relating to each of the pass/fail and quality evaluation factors listed in Section 3.3 are included in Sections 4.4.1 and Section 4.4.2, respectively, of this RFQ.

3.2 Review and Evaluation of the SOQ

The information submitted in accordance with Section 4 will be evaluated in accordance with both the pass/fail evaluation factors listed in Section 3.3.1 and the quality evaluation factors provided in Section 3.3.3.

3.3 Evaluation Factors for the SOQ

Following or in conjunction with evaluation of each SOQ for responsiveness as set forth in Section 3.3.2, the Department will evaluate each SOQ based upon the following pass/fail criteria. A Proposer must obtain a “pass” on all pass/fail items in Section 3.3.1 in order for its SOQ to be evaluated qualitatively under Section 3.3.3.

3.3.1 Pass/Fail Evaluation Factors

The pass/fail evaluation factors are as follows:

- A) The SOQ contains an original executed cover letter as required in Section 4.4.1.
- B) Neither the Proposer nor any other entity that has submitted Form L-2 (Appendix B) as required by this RFQ is currently disqualified, removed, debarred, or suspended from performing or bidding on work for the federal government or any state government.
- C) No Principal Participant has been found liable for breach of contract with respect to a previous project, other than a breach for a legitimate cause.
- D) The SOQ contains a completed Acknowledgement of Receipt Form (Appendix B).
- E) The information disclosed on Form L-2 (Appendix B) submitted by Proposer or any other entity as required by this RFQ does not, in the Department’s sole discretion, materially adversely affect the Proposer’s ability to carry out the Project responsibilities potentially allocated to the Proposer in the Contract.
- F) The information disclosed on Form PP (Appendix B) submitted by Proposer or any other entity as required by this RFQ does not, in the Department’s sole discretion, materially adversely affect the Proposer’s ability to carry out the Project responsibilities potentially allocated to the Proposer in the Contract.

G) The Proposer has provided a letter from an eligible surety or insurance company indicating that the Proposer is capable of obtaining a proposal bond, performance bond, and payment bond covering the Contract as set forth in Section 4.4.1.3.

3.3.2 Responsiveness

Each SOQ will be reviewed for i) the responsiveness of the Proposer to the submittal requirements set forth in this RFQ, ii) conformance to the RFQ instructions regarding organization and format, and iii) the absence of nonconformities, irregularities, and apparent clerical mistakes that are not reasonably correctable through minor Clarifications. Those SOQs not responsive to this RFQ may be excluded from further consideration, and the Proposer will be so notified. The Department may also exclude from consideration any Proposer where a SOQ contains a material misrepresentation.

3.3.3 Quality Evaluation Factors

The quality evaluation factors and associated weightings are listed in the following table.

Quality Evaluation Criteria and Weighting

Criteria	Weighting
Design-Build Plan and Organization (Volume II Section 1 of the SOQ): The objective of this evaluation factor is to identify Proposers that demonstrate a general understanding and plan to managing the design, construction, and technical issues and risks associated with design-build projects, in addition to Proposers that clearly define the functional relationships of the Proposer’s team and its Key Personnel.	25%
Qualifications of Key Personnel (Volume II Section 2 of the SOQ): The objective of this evaluation factor is to identify Key Personnel that have availability, demonstrate teamwork, and exhibit relevant experience in managing, designing, and/or constructing projects of similar size and complexity to that of the Project.	25%
Experience and Past Performance of the Proposer Firms (Volume II Section 3 of the SOQ): The objective of this evaluation factor is to identify i) the best design and construction firms available with demonstrated experience and a record of producing quality work on Department projects and other projects similar in size and complexity to the Project (notably in how a Proposer’s experience relates to Design-Build or other alternatively delivered projects); ii) Proposers that will effectively manage all aspects of the Contract in a quality, timely, and effective manner; and iii) Proposers with firms without a history of legal, financial, safety, quality, and timeliness problems that could adversely impact the Project.	40%
Safety (Volume II Section 4 of the SOQ): The objective of this evaluation factor is to identify Proposers with proven safety records/practices and to avoid Proposers with a history of safety problems.	10%

During the SOQ evaluation, ratings will be assigned for the various requirements (see Section 4.4.2) of each quality evaluation factor. The ratings assigned to each requirement will be compiled to determine an overall quality evaluation factor rating. The ratings assigned to the quality evaluation factors will be compiled to determine an overall quality rating for the SOQ. Numerical scores will be assigned.

Quality ratings for each quality evaluation factor and the overall quality rating for the SOQ will be based on the following adjectival quality rating criteria:

EXCEPTIONAL: The Proposer has provided information relative to its qualifications that is considered to **significantly exceed** stated objectives/requirements in a beneficial way

1 and indicates a consistently outstanding level of quality. There are essentially no
2 Weaknesses.

3 GOOD: The Proposer has presented information relative to its qualifications that is
4 considered to **exceed** stated objectives/requirements and offers a generally better than
5 acceptable quality. Weaknesses, if any, are very minor.

6 ACCEPTABLE: The Proposer has presented information relative to its qualifications that
7 is considered to **meet** the stated objectives/requirements, and has an acceptable level of
8 quality. Weaknesses are minor and can be readily corrected.

9 POOR: The Proposer has presented information relative to its qualifications that **contains**
10 **significant Weaknesses and/or Deficiencies and/or poor quality**. The SOQ fails to
11 meet the stated objectives and/or requirements and/or lacks essential information.
12 Weaknesses/Deficiencies are so major and/or extensive that a major revision to the SOQ
13 would be necessary and/or are not correctable.

14 3.4 Requests for Clarification

15 Proposers shall provide accurate and complete information to the Department. If the information
16 provided is not complete, the Department shall either declare the SOQ non-responsive or notify
17 the Proposer of the insufficiency through a request for Clarification. The Department may, in its
18 sole discretion, prohibit Proposers from participating further in the procurement of the Project until
19 all information required in this RFQ is provided through submittal of corrected, supplemental, or
20 missing documents. If a Proposer's response is not provided by the deadline established by the
21 Department in its request for Clarification, the SOQ may be declared non-responsive by the
22 Department, in its sole discretion.

23 The Department may, at its sole discretion, request Clarifications and/or supplemental information
24 from the Proposers during the SOQ evaluation and Short-List process.

25 All requests and responses shall be in writing by certified mail, courier, or e-mail and, if by e-mail,
26 confirmed in a hard copy by priority mail/express delivery service. Responses shall be limited to
27 providing the specific information requested by the Department. Responses to requests for
28 clarification that are incomplete or do not address the information sought shall result in the
29 Department declaring the associated SOQ as non-responsive.

30 The Department does not anticipate conducting interviews during the RFQ step, but reserves the
31 right to do so. If the Department elects to conduct interviews, the Proposers shall be notified in
32 writing.

33 Proposers must submit follow-up responses to inquiries by the Department to the address
34 indicated below except as otherwise specified in writing or e-mail by the Department. Responses
35 shall be submitted to the following address:

1 In the event a material error is discovered in the RFQ during the SOQ evaluation process, the
2 Department will issue an Addendum to all Proposers that have submitted SOQs requesting
3 revised SOQs based upon the corrected RFQ.

4 **3.5 Determination of the Short-List**

5 The Department will establish a Short-List of a minimum of three (3) and a maximum of five (5)
6 (as determined by the Department) of the most highly qualified Proposers in order to ensure
7 adequate competition. Neither the overall ratings nor the ranking of the Proposers on the Short-
8 List will be disclosed to the Proposers during the procurement process and will not be considered
9 during the evaluations of Proposals submitted in response to a RFP.

10 **3.6 Challenge**

11 The decision of the Department on the composition of Short-List and the subsequent award of
12 the Contract shall be final and shall not be appealable, reviewable, or reopened in any way, except
13 as provided in Section 5.0.

17 **4.3 Page Limit, Format, and Quantities**

18 The Proposer’s SOQ shall be packaged into two (2) separate volumes. Volume I is to include the
19 cover letter and Volume I’s sections and all applicable appendices. Volume II is to include Volume
20 II’s sections and all applicable appendices. Both volumes of the SOQ shall include clearly marked
21 dividers for each section. The page limits of the various sections of the SOQ exclude required
22 forms, resumes, dividers, appendices, and the one-page (1-page) organizational chart, which may
23 be provided on a single 11-inch by 17-inch sheet. (Appendix A provides further details on the
24 contents of a SOQ.)

25 The Proposer shall provide one (1) original and one (1) copy of Volume I and one (1) original and
26 five (5) copies of Volume II of the SOQ. The signed original copy shall be identified as the original
27 on the covers and marked as “SOQ Volume I No. 1 of 2” and “SOQ Volume II No. 1 of 6,”

33 one (1) typewritten, legible submittal of Volume I and Volume II of the SOQ as detailed above in
34 Portable Document Format (PDF).

35 **4.4 Content of the SOQ**

36 This section describes the specific information that must be included in the SOQ that will form the
37 basis of the Department’s evaluation of each Proposer. An outline of the required format for the
38 SOQ is provided in Appendix A, and the required forms for the SOQs are contained in Appendix
39 B. Any material modification to the forms may result in a SOQ being declared non-responsive.

1 Proposers must provide brief and concise information that addresses the objectives and the
2 requirements of the Project consistent with the pass/fail evaluation factors described in Section
3 4.4.1 and quality evaluation factors described in Section 4.4.2. Lengthy narratives containing
4 extraneous information are discouraged.

5 The Department will maintain a confidential process for the duration of this procurement. All
6 records related to this procurement, including, but not limited to, SOQs, Proposals, and the final
7 Proposer ranking, will remain confidential until a notice of intent to award the Contract is issued
8 pursuant to NRS 408.3888(1).

9 If the Proposer submits information in its SOQ that it believes to be confidential under NRS
10 333.333, NRS 408.215, or elsewhere in State law, and wishes to protect it from disclosure, the
11 Proposer must do the following:

12 A) Clearly mark all trade secrets or other proprietary information customarily regarded as
13 confidential as such in its SOQ at the time the SOQ is submitted, and include a cover
14 sheet immediately after the cover letter and Acknowledgment of Receipt (Appendix B)
15 form in Volume I identifying each section and page that have been so marked;

16 B) Include a statement in the cover sheet justifying the legal basis for Proposer's
17 determination that certain records are confidential for each record so defined; and

18 C) Defend any action seeking release of the records it believes to be confidential and
19 indemnify, defend, and hold harmless the State and the Department, its agents, and its
20 employees from any judgments awarded against the State in favor of the party requesting
21 the records, including any and all costs connected with that defense. This indemnification
22 survives the Department's cancellation or termination of this procurement or award and
23 subsequent execution of a Contract. In submitting a SOQ, the Proposer agrees that this
24 indemnification survives as long as the confidential information is in possession of the
25 State.

26 Unless otherwise provided by law, confidential information provided to the Department is not
27 subject to inspection at any time by third persons under NRS 333.333, NRS 408.215, or elsewhere
28 in State law.

29 All records pertaining to this procurement will become public information after issuance of a notice
30 of intent to award the Contract, unless such records are determined to be confidential or otherwise
31 exempt from disclosure under State law. Any records marked as confidential by a Proposer in its
32 SOQ and, if Short-Listed, in its Proposal will be returned to the unsuccessful Proposers after the
33 execution of the Contract with the Design-Builder. The records marked confidential by the
34 successful Proposer in its SOQ and Proposal will remain confidential and will be returned to the
35 Design-Builder upon completion and final acceptance of its Work under the Contract.
