Contractor's Use of 1391 Reporting
This process is to automate the collection and compilation of the FHWA 1391 report. Contractors will be sent a request for reporting in a specified date range for week end dates. For example the last week worked with a week end date in July.

Additional Data Entry
Contractors will enter the additional, non-prevailing wage employment information in the forms shown below.
1391 Report

Once the data is in the contractor can view their own 1391 report. The administrator has a report showing who has submitted data.
