Welcome to Nevada

Warm western hospitality awaits you in the fastest growing state in the nation. You'll find friendly Nevada a land of vast domain and rich resources, scenic wonderlands and industrial opportunity . . . sixth largest in area (110,690 square miles) and first in wide open spaces with only 250,000 people, *NEVADA HAS EVERYTHING!*

Recreation — There's unlimited recreation for all . . . from big game to quail for the hunter . . . black bass to cutthroat trout for the fisherman . . . swimming, boating, water skiing . . . 28 camping areas . . . 10 state parks . . . many roadside rests and some of the most magnificent scenery in the world, from snowcapped mountains to sagebrush-covered desert.

Climate — Year around sunshine awaits the visitor with a wide variety of climate from the sun-filled mecca of southern Nevada to the skiing slopes of western and eastern Nevada.

Industry — Rich in ores, Nevada is one of the country's foremost mining states. Excellent climate combines with good water and natural feed to make stock raising another of the state's important industries while irrigation has broadened Nevada's agricultural picture to include raising of hay, potatoes, garden vegetables, grain, melons, poultry, cotton, fruits, corn and many other field crops.

Transportation — The most modern means of transportation connect Nevada cities with the rest of the West. The Silver State is served by three major railroads, three bus lines, five airlines and over four thousand miles of paved roads for the motoring public. Make your next trip or vacation a memorable one, *COME TO NEVADA.*
