

I-11 NORTHERN NEVADA ALTERNATIVES ANALYSIS

July and August 2018 PUBLIC MEETINGS

The Nevada Department of Transportation (NDOT) is initiating the I-11 Northern Nevada Alternatives Analysis. The goal of this Planning and Environmental Linkage (PEL) process is to advance the congressionally designated I-11 corridor of US 95 between Las Vegas and Interstate 80 as identified in the *I-11 Intermountain West Corridor Study (2014)* by considering a range of potential corridors. The result will be a smaller range of potential corridors to be analyzed under future environmental study process(es). This will help NDOT to strategically plan how to best advance this important transportation investment over time and inform future actions by both NDOT and federal land agencies.

To hear from as many Nevadan's as possible, NDOT will be holding a round of public meetings between July 24th and August 9th at the locations listed below. Each meeting will contain the same content, including a formal presentation. Please help us advance this critical future transportation link. The public comment period will remain open until Friday August 31, 2018.

Location	Date/Time
Carson City NDOT Headquarters 3 rd Floor Conference Room 1263 S. Stewart Street, Carson City, NV 89712 Video Conference Locations: Winnemucca District III Office Conference Room 725 W. 4th Street, Winnemucca, NV 89445 Elko District III Office Conference Room 1951 Idaho Street, Elko, NV 89801 Las Vegas District I Office Conference Room Bldg.
