Interstate 515/215 Re-Striping Project in Henderson, NV

PURPOSE OF MEETING: The Nevada Department of Transportation (NDOT), will soon re-stripe the I-515 / I-215 interchange. This meeting is to inform the travelling public about project details including how ramp access will be adjusted at the I-515 Auto Show Drive Interchange and the I-215 Gibson Road Interchange and the I-515 / I-215 Interchange.

PROJECT BENEFITS: The goal is to improve safety and mobility for southbound I-515 and westbound I-215 as well as the ramp connecting the two freeways. Southbound I-515 to westbound I-215 ramp has experienced significant congestion. The result has impacted the public's travelling times and has increased the potential for safety concerns. Two merging/weaving areas have also been identified that are contributing to the increased congestion and the increased risk of the traveling public. The first area is on I-515 south, just before the I-215 on-ramp; and the second area is between where the I-215 west ramp merges onto I-215, and the Gibson Road off-ramp. While efforts are being made to establish a larger scale project for the I-515 / I-215 Interchange, this project was identified to address the more immediate congestion and safety concerns.

WHEN AND WHERE: Wednesday, August 22, 2018, 4 – 7 p.m., **PRESENTATION AT 5:30 p.m.**
Henderson Convention Center, 200 South Water Street, Henderson, NV 89009.
