Nevada Department of Transportation

QUARTERLY REPORT FOR MAJOR PROJECTS

June 30, 2018

TABLE OF CONTENTS

1.0 INTRODUCTION 2
2.0 PROJECT STATUS SHEET EXPLANATION 3
3.0 MAJOR PROJECTS 4
4.0 COMPLETED MAJOR PROJECTS 25
1.0 INTRODUCTION

The primary purpose of this quarterly report, ending June 30, 2018, is to provide the Nevada Legislature, the Transportation Board of Directors, and the general public with the status of major projects undertaken by the Nevada Department of Transportation (NDOT) as required by Assembly Bill 595 that was passed in 2007. This quarterly report specifically addresses the reporting requirements of Section 55.5.

This status report is based on the major assumption that funding will be available for the major projects in a timely fashion.

Section 2 of this report provides a detailed description and explanation of the information on each project status sheet.

Section 3 of this report includes project status sheets for all major projects as required by AB 595. There are project sheets for highway capital projects indentified in the December 2006 Blue Ribbon Task Force report: “Roads to the Future” and any other proposed super or mega projects. All of these projects are simply characterized as major projects (projects exceeding $100 million).

Section 4 of this report identifies any major projects completed during this quarter.
2.0 PROJECT STATUS SHEET EXPLANATION

The information contained on the project status sheet is centered on the Department’s project development process. This process typically consists of the four major phases: planning, environmental clearance, final design and construction. The project status sheets contain several items of information as follows:

**Project Description:** Contains the preliminary project scope, which generally identifies features of the project i.e. length, structures, widening, and interchanges, and directs the project development process.

**Project Benefits:** Summarizes the primary favorable outcomes expected by delivering the project.

**Project Risks:** Identifies the major risks that might impact project scope, cost, and schedule. Unforeseen environmental mitigation, right-of-way litigation, and inflation of construction materials or land values are only a few items that can adversely effect project development.

**Schedule:** Provides the time ranges for the four primary phases of project development: planning, environmental clearance, final design, and construction. Generally the schedule, by state fiscal years, reveals the time range for starting or completing a phase. It indicates the starting range early in the development process and completion range latter in the process.

**Project Costs:** Project cost ranges are provided by activity: 1) engineering activities that includes planning, environmental clearance and final design costs, 2) right-of-way acquisition, and 3) construction. Costs are adjusted for inflation to the anticipated mid-point of completing a phase.

**What’s changed since last update?** Contains summaries of the project scope, cost, and schedule changes, if any.

**Financial Fine Points:** Includes the total expended project costs and brief summary of financial issues.

**Status Bars at the Bottom of the Form:** Shows the percentage completion for the primary project development activities that are in progress: planning, environmental clearance, final design, right-of-way acquisition, and construction.
3.0 MAJOR PROJECTS

I-15 Projects

I-15 North Phase 2 Pkg A – Craig Road to Speedway Boulevard
I-15 North Phase 3 – Speedway Boulevard to Apex Interchange
I-15 North Phase 4 – I-15/CC-215 Northern Beltway Interchange
I-15 NEON DB
I-15 Urban Resort Corridor Study
I-15 South Bermuda Road Interchange
I-15 South Pebble Road Overpass
I-15 South Starr Avenue Interchange
I-15 South Las Vegas Blvd. from St. Rose Parkway to Sunset Rd.
I-15 South Phase 2A-2B
I-15 South Sloan Road Interchange
I-15 South – Stateline to Sloan Road

I-515/I-11 Projects

I-11 Phase 1 - Foothills Drive Grade Sep to Silverline Road North of US-95
I-11 Phase 2 - Silverline Road to the Nevada Interchange

US-95 Northwest Projects

US-95 Northwest Phase 2B – Durango Drive to Kyle Canyon Road
US-95 Northwest Phase 3C – CC 215 Beltway Interchange
US-95 Northwest Phase 3D/E – CC 215 Beltway Interchange

Northern Nevada Projects

180/ I580/ US 395 Reno Spaghetti Bowl System Interchange
Pyramid Highway - US 395 Connection
US-395 Carson City Freeway Phase 2B – S. Carson St. to Fairview Dr.
Project Description:
- This project consists of corridor improvements from Craig Road to Speedway Blvd inclusive of:
  - Capacity improvements - widening Craig Rd to Speedway Blvd from 4 to 6 lanes
  - Remove & replace PCCP with ACP (Craig to Lamb)
  - Drainage improvements
  - Widen & seismic retrofit of 4 structures (G-958N, G-958S, G-961N & G-961S) over 2 UPRR crossings
  - Landscape and aesthetic improvements
  - Right-of-way fence replacement
  - All construction within the existing I-15 right-of-way
  - Project length: 4.8 miles

Schedule:
- Planning: Complete
- Environmental: Complete
- Final Design: Complete
- Construction: 3rd Quarter 2016 - 3rd Quarter 2018

Project Cost Range:
- Engineering: $ 1.93 M
- Right of Way: $ 0.22 M
- Construction: $ 37.6 - 39.5 M
- Total Project Cost: $ 38.8 - 41.7 M

Project Benefits:
- Improve safety
- Reduce travel times
- Decrease congestion
- Improve freeway operations
- Increase life of pavement
- Increase I-15 capacity to accommodate projected traffic

Project risks:
- Coordination with railroad during bridge construction
- Drilled shaft construction
- Work zone traffic control

Financial Fine Points (Key Assumptions):
- Total funding expended for Construction: $ 38,380,000
- Total funding expended for Design of all packages: $ 2,214,000
- Total funding expended for the Environmental Phase for all packages: $ 875,000
- Construction inflation escalation (3.7%) is to midpoint of construction

What's Changed Since Last Update?
- Scope: No change
- Schedule: No change
- Cost: No change
- Construction contract awarded to Las Vegas Paving on 6/7/2016 for $33,800,000; construction complete
**Project Description:**
- This is the third phase of improvements to the I-15 North Corridor between US 95 and Apex Interchange.
- Widen I-15 from four lanes to six lanes from Speedway Boulevard to the Apex Interchange.
- Construct new interchange between Speedway Boulevard and Apex Interchange.
- Project length: 4.6 miles

**Schedule:**
- **Planning:**
  - Complete
- **Environmental Phase:**
  - Complete
- **Final Design:**
  - 2019 - 2021
- **Construction:**
  - 2021 - 2023

**Project Cost Range:**
- **Engineering:**
  - $10 - $12 million
- **Right-of-Way:**
  - $3 - $3.6 million
- **Construction:**
  - $75 - $85 million
- **Total Project Cost:**
  - $88 - $101 million

**Project Benefits:**
- Improve safety
- Reduce trip times
- Improve access to areas planned for development in North Las Vegas
- Improve operations
- Increase capacity

**Project risks:**
- Funding for Final Design has not been identified in the STIP
- Timely completion of design
- Right of Way for new interchange has not been determined
- Uncertainty of proposed Sheep Mountain Parkway terminus
- Northern project limits may be modified to accommodate improvements at Garnet Interchange

**Financial Fine Points (Key Assumptions):**
- Total funding expended for phase 3: $0 (design phase not started)
- Total funding expended for I 15 North Environmental phase: $875,000
- Inflation escalation (4.12%) is to approximate midpoint of construction
- Funding source for this project has not yet been identified
**Project Description:**

- This is the last of four phases of improvements to the I-15 North Corridor between US 95 and Apex Interchange (15 miles)
- Construct new direct connect ramps to upgrade the I-15 & CC 215 (Las Vegas Beltway) Interchange
- Construct I-15 SB ramps & reconstruct I-15 NB ramps for the I-15 & Tropical Parkway Interchange
- Reconstruct local streets to match Interchange reconfigurations
- Provide Landscape & Aesthetic enhancements in accordance with the I-15 Landscape & Aesthetics Corridor Plan
- Improvements will be constructed generally within the existing I-15 and CC-215 Rights-of-Way. However, approximately 3 acres may be required to construct the project

**Schedule:**

**Planning:**
Complete

**Environmental:**
Complete

**Final Design:**
Start 2015 - 2019

**Construction:**
2019 - 2022

**Project Cost Range:**

<table>
<thead>
<tr>
<th>Engineering</th>
<th>$8.8 - $10.1 million</th>
</tr>
</thead>
<tbody>
<tr>
<td>Right-of-Way</td>
<td>$6.6 - $7.4 million</td>
</tr>
<tr>
<td>Construction</td>
<td>$80 - $93 million</td>
</tr>
</tbody>
</table>

**Total Project Cost:**

$95.4 - $110.5 million

**What's Changed Since Last Update?**

- Scope - No Change
- Schedule - No Change
- Cost - Updated

**Project Benefits:**

- Improve safety
- Reduce trip times
- Improve access to areas planned for development in North Las Vegas
- Improve operations with full freeway-to-freeway connectivity
- Increase capacity

**Project risks:**

- Cost and schedule impact of structure design
- Cost and schedule impact of utility relocations
- Timely completion of preliminary engineering
- Timely completions of UPRR permits & agreements
- Availability of construction funds
- Acquisition of approximately 3 acres to construct the project

</tr>
</tbody>
</table>

Financial Fine Points (Key Assumptions):

- Total funding expended for preliminary engineering: $3,748,000
- Total funding expended for I-15 North environmental phase: $875,000
- NDOT Average Escalation Rates applied
- Construction funding has not been identified

July 2018
### Project Description:
- HOV Direct Connector from US 95 to I 15 and I-15 widening improvements from Spaghetti Bowl to south of Sahara; Add/Drop lanes at Oakey/Wyoming
- Local Access Improvements to Las Vegas Downtown Redevelopment
- New access to Alta
- I-15/Charleston Interchange Reconstruction
- Project Length: 4.83 miles
- *This project now includes what was previously Phases 1-4.*

### Schedule:
- **Planning:** Complete
- **Environmental:** Complete
- **Begin Construction:** November 2016
- **Substantial Completion:** August 2019

### Project Cost Range:
- **Engineering:** $50 - $60 Million
- **Right-of-Way and Utilities:** $225 - $250 Million
- **Construction:** $550 - $575 Million
- **Construction Engineering:** $40 - $50 Million
- **Total Project Cost:** $865 - $935 Million

### Project Benefits:
- Will accommodate anticipated traffic increases
- New access to Downtown Redevelopment
- Reduce congestion along local streets and I-15
- Extends HOV System

### Project risks:
- Complex construction in a high volume dense urban area
- Complexity in maintaining traffic, staging, relocating utilities and reducing impacts
- Complex right-of-way issues may impact schedule and cost

### What's Changed Since Last Update?
- Project is under construction

### Financial Fine Points (Key Assumptions):
- Total Funding Expended: $498,000,000
- Transportation Board approved the authority to bond for the Project.

July 2018
I-15 Urban Resort Corridor Study  
Project Sponsor: NDOT  
Senior Project Manager: Jeff Lerud  
(702) 671-8865

**Project Description:**
- The I-15 Urban Resort Corridor Study along I-15 from I-215 (Bruce Woodbury Beltway) to the south, to US 95 (Spaghetti Bowl) to the north.
- Enhance access and mobility within the resort corridor; develop a phased implementation strategy for future improvements to I-15 in the resort corridor area in addition to currently planned improvements.
- Prepare an early action plan for near-term improvements to enhance mobility and operations.

<table>
<thead>
<tr>

<th>Environmental:</th>
<th>Final Design:</th>
<th>Construction:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Completed</td>
<td>TBD</td>
<td>TBD</td>
<td>TBD</td>
</tr>
</tbody>
</table>

**Project Cost Range:**
- Engineering: TBD
- Right-of-Way: TBD
- Construction: TBD
- Total Project Cost: TBD

**Project Benefits:**
- Improve capacity, operations, safety, access and mobility.
- Meet stakeholders/public expectations.
- Improve quality of life.
- Support economic development.
- Reduce trip times.

**What's Changed Since Last Update?**
- Scope - No Change
- Schedule - No Change
- Cost - No Change
- Planning Phase Completed

**Project risks:**
- Consensus building among the resort owners.
- Funding uncertainty.
- Economic development along the corridor could require design changes affecting scope, schedule and budget.

**Financial Fine Points (Key Assumptions):**
- Total funding expended: $786,738

Planning complete: 100%

July 2018
I 15 South - Bermuda Road Interchange
Project Sponsor: City of Henderson
Project Manager: Ryan Wheeler, P.E.
(702) 671-8876

Project Description:
- I-15 South Project from Sloan to Tropicana has been broken into nine (9) Project elements to address funding and constructability opportunities.
- This is one element of the I-15 South project.
- Construct new interchange at Bermuda Road.

Schedule:
Planning: Complete
Environmental: Complete
Final Design: 2026 - 2027
Construction: TBD

Project Cost Range:
(Estimates per June 2014 CRA)
Engineering: $9.5 - $10 M
Right-of-Way: $1.5 - $2 M
Construction: $93 - $98 M
Total Project Cost: $104 - $110 M

Project Benefits:
- Interchanges on I-15 reduce congested traffic on the main line and associated regional facilities.
- Connect Regional traffic.

What's Changed Since Last Update?
- Scope - No Change
- Schedule - No Schedule. Unfunded on 2035 RTP.
- Cost - adjusted per June 2014 CRA

Project risks:
- Unit price and property escalation may affect project cost.
- Funding uncertainty

Financial Fine Points (Key Assumptions):
- Funding not available until 2026-2030 per current Financial Plan.
- Total funding expended for I-15 South Environmental Studies (all phases): $3.5 million
- Inflation index distribution of 2% - 5% is to 2029 approximate midpoint of construction.
- Funding Source (Financial Plan 2009): Q10 Extended ($57.1M) and STP Clark County ($60M).

% Environmental Complete
% Design Complete

July 2018
**I 15 South - Pebble Road Overpass**

*Project Sponsor: Clark County*

*Project Manager: Ryan Wheeler, P.E.*

*(702) 671-8876*

---

**Project Description:**
- I-15 South Project from Sloan to Tropicana has been broken into nine (9) Project elements to address funding and constructability opportunities.
- This is one element of the I-15 South Project.
- Construct overpass at Pebble Road and I-15

**Schedule:**
- **Planning:** Complete
- **Environmental:** Complete
- **Final Design:** TBD
- **Construction:** TBD

**Project Cost Range:**
(Environmental Phase Estimates/Removal from RTP)

*Engineering:
$6.5 - $7 M*

*Right-of-Way:
$8 - $10 M*

*Construction:
$51.5 - $53 M*

*Total Project Cost:
$66 - $70 M*

---

**Project Benefits:**
- Interchanges on I-15 reduce congested traffic on the main line and associated regional facilities.
- Connect regional traffic.
- Improve origin destination time of travel.

**What's Changed Since Last Update?**
- **Scope - No Change**
- **Schedule - This project was removed from 2030 RTP.**
- **Cost - No Change**

**Project risks:**
- Unit price and property escalation may affect project cost.
- Lack of funding may push this project well into the future

**Financial Fine Points (Key Assumptions):**
- Funding not available until 2040.
- Total funding expended for I-15 South Environmental Studies (all phases): $3.5 million
- Funding Source (Financial Plan 2009): Private Developers ($30M)

_Nevada DOT_

*July 2018*
I 15 South - Starr Avenue Interchange

Project Sponsor: City of Henderson
Senior Project Manager: Ryan Wheeler
(702) 671-8876

Project Description:
- I-15 South, from Sloan Road to Tropicana Ave, has been broken into nine packages to address funding and constructability opportunities.
- This project is one piece of the overall I-15 South Corridor
- Construct a new interchange at Starr Avenue with on & off-ramps
- Connect to Las Vegas Blvd (east side) and Dean Martin Drive (west side)
- I-15 over Starr Avenue and shifted 50 ft. to the east of the existing I-15.

Schedule:
- Planning: Complete
- Environmental: Complete
- Final Design: 2010-2017
- Construction: 2017-2018

Project Cost Range:
(Environmental Phase Estimates)
- Preliminary Engineering: $10 - $11 M
- Right-of-Way: $8 - $14 M
- Construction: $40 - $58 M
- Total Project Cost: $58 - $83 M

Project Benefits:
- Improve access to I-15 with new interchange
- Connect east-west regional traffic from Las Vegas Blvd to/from Dean Martin Drive
- Improve I-15 mainline capacity

What’s Changed Since Last Update?
- Project Awarded to Las Vegas Paving at bid of $33.7 Million
- Ground breaking event held Nov 30, 2017
- I-15 SB & NB realignment installed April 2018 to construct the new bridge.
- Storm Drain box under new Starr Ave from Las Vegas Blvd to I-15 is completed
- Fill placed for bridge. Bridge construction underway.

Project risks:
- Uncertain Right of Way costs
- Material and labor cost escalation
- Availability of funding
- Utility & billboard relocation
- Cell phone tower, re-location potential or avoidance

Financial Fine Points (Key Assumptions):
- Total funding expended for I-15 South Environmental Studies (all phases): $3.5 million
- Construction Funding secured with $35.2M from FRI-1 by City of Henderson, remaining funding by federal and state funds

% Environmental Complete
% Design Complete
% Construction Complete

July 2018
Project Description:
- I-15 South from Sloan to Tropicana has been broken into nine (9) Project elements to address funding and constructability opportunities.
- This is one element of the I-15 South Project.
- Widening of Las Vegas Boulevard (parallel to I-15) from St. Rose Parkway (SR 146) to Sunset Road from 2 to 3 lanes in each direction.
- Project Length: 7.2 miles
- This project will be constructed in two packages:
  - Package 1: Las Vegas Boulevard from Silverado to Sunset - *Completed as of July 2011
  - Package 2: Las Vegas Boulevard from St. Rose to Silverado Ranch

Schedule:
- Planning: Complete
- Environmental: Complete
- Final Design: Package 1- Complete , Package 2- Complete
- Construction: Package 1 -Complete, Package 2 Construction start Spring 2017

Project Cost Range:
(Environmental phase estimates):
- Engineering: $4 - $4.5 M
- Right-of-Way: $0
- Construction: $31.5 - $33 M
- Total Project Cost: $35.5 - $37.5 M

Project Benefits:
- Increase capacity
- Improve safety
- Improve access
- Reduce trip times
- Reduce vehicle emissions
- Reduce idling
- Improve driver comfort

What's Changed Since Last Update?
- Scope - No Change
- Schedule - No Change
- Cost - No Change
- Package 2 awarded to Las Vegas Paving, Work started Spring 2017

Project risks:
- Complexity in maintaining traffic staging, relocating utilities and reducing impacts to traveling public.

Financial Fine Points(Key Assumptions):
- Total NDOT Funding Expended for LV Blvd.: $4.3 M
- Total funding expended for I-15 South Environmental studies (all phases): $3.5 million
- Inflation index distribution of 2% - 5% is to 2011 approximate midpoint of construction.
- Funding Source: STP Clark County ($8.3M)
I 15 South - Phase 2A/2B  
Sloan Road to Blue Diamond (SR-160)

[NEVADA DOT]
# I 15 South - Sloan Road Interchange

**Project Sponsor:** City of Henderson  
**Project Manager:** Ryan Wheeler, P.E.  
(702) 671-8876

## Project Description:
- I-15 South Project from Sloan to Tropicana has been broken into nine (9) project elements to address funding and constructability opportunities.
- This is one element of the I-15 South Project.
- Reconstruct interchange at Sloan Road.

## Schedule:
- **Planning:** Complete
- **Environmental:** Complete
- **Final Design:** TBD
- **Construction:** TBD

## Project Cost Range:
(Estimates per June 2014 CRA)
- **Engineering:** $12.5 - $13 M  
- **Right-of-Way:** $23.5 - $24.5 M  
- **Construction:** $119.5 - $124.5 M  
- **Total Project Cost:** $155.5 - $162 M

## Project Benefits:
- Interchanges on I-15 reduce congested traffic on the main line and associated regional facilities.
- Connect Regional traffic.
- Improve origin destination time of travel.

## Project risks:
- Unit price and property escalation may affect project cost.
- Sloan Interchange to be constructed prior to widening to accommodate additional lanes

## Financial Fine Points (Key Assumptions):
- Funding not available until 2026-2030 per current Financial Plan.
- Total funding expended for I-15 South Environmental Studies (all phases): $3.5 million
- Inflation index distribution of 2% - 5% is to 2029 approximate midpoint of construction
- Funding source (RTP 2035): STP Clark County ($65M)
# I 15 South - Stateline to Sloan

**Project Sponsor:** NDOT  
**Project Manager:** Ryan Wheeler, P. E.  
*(702) 671-8876*

## Project Description:
- Reconstruct interchange ramps at Primm, Jean and Sloan Interchanges to address safety issues.
- Signing improvements with DMS signs on I-15.
- Shoulder improvements.

## Schedule:
- **Planning:**
  - 2013 - 2015
- **Environmental:**
  - TBD
- **Final Design:**
  - TBD
- **Construction:**
  - TBD

## Project Cost Range:
- **Engineering:**
  - $3 - $4 M
- **Right-of-Way:**
  - TBD
- **Construction:**
  - $35 - $50 M
- **Total Project Cost:**
  - $38 - $54 M

## Project Benefits:
- Update ramp geometrics to current standards.
- Decrease congestion.
- Improve communications and driver awareness with message signs.
- Improve on/off ramps at Primm, Jean and Sloan Interchanges.

## Project risks:
- Uncertainty of future construction materials and labor costs.
- Complex construction in a high volume rural area may affect schedule and costs.
- Funding uncertainty.

## Financial Fine Points (Key Assumptions):
- Total funding expended: $0
- Funding: Government Services Tax $52 Million
- Inflation Index of 3% is to approximate midpoint of construction.

## What’s Changed Since Last Update?
- Scope - Scope modified to Safety project
- Schedule - No Change
- Cost - No Change.

**July 2018**
I 11 Phase 1
Foothills Drive Grade Sep to Silverline Road north of US 95
Project Sponsor: NDOT
Senior Project Manager: Ryan Wheeler, P.E.
(702) 671-8876

Project Description:
- Project was originally to be delivered via a series of five separate packages.
- One package regarding tortoise fencing/plant salvaging was completed ahead of the project.
- Realignment of US 93 / US 95 to create an access controlled facility from Foothill Drive to Silverline Road.
- One new diamond interchange along with one Frontage Road will be constructed.
- Direct Connector Ramps from the new facility to and from US 93 will be constructed.
- A railroad bridge will be constructed to re-connect the previously severed railroad tracks separated by US 93.
- Project length: 2.5 miles.

Schedule:
Planning: Complete
Environmental: Complete
Final Design: Complete
Construction:
- Package 2A Complete
- Notice to Proceed issued May 11th 2015
- Contract awarded on Feb 10, 2015 to Fisher Sand & Gravel

Project Cost Range:
(Final Design Phase Estimates)
Engineering: $5 - $8 million
Right-of-Way: $10 - $28 million
Construction (Completed Phase 2A only): $1.4 million
Construction (All Packages): $85 - $100 million
Total Project Cost: $100 - $138 million

Project Benefits:
- Improves safety by eliminating a half-signal at US 93 and Railroad Pass Casino.
- Improves operations for Trucks from US 95 to US 93.
- Improves operations for peak trips from Boulder City to Las Vegas.
- Improves local circulation.
- Reconnects railroad tracks previously severed by US 93.
- Connects Henderson’s trail system with the River Mountain Loop Trail.
- Completes initial phase of the Boulder City Bypass.

What’s Changed Since Last Update?
- Traffic is utilizing northbound and southbound new I-11 alignments.
- Contractor is finalizing the RR track installation, the frontage road, landscape and aesthetics and is scheduled for project completion the end of May 2018.

Project risks:
- Right-of-Way acquisition schedule.
- Final reports for NOA testing have been published and can be found on the main project website at www.i-11phaseone.com.
- NOA mitigation has been determined and Contractor will follow an approved NOA Management Plan.
- Timely completion of the utility agreements and associated amendments.

Financial Fine Points (Key Assumptions):
- Total funding expended (Preliminary Engineering & Environmental): $7,459,449
- Total funding expended (Right-of-Way): $18,858,124
- Total funding Expended for BC Bypass Environmental studies (all phases): $5,199,679
- Total funding expended for construction of Phase 2A: $1.4 million (actual)

I 11 Phase 2
Silverline Road north of US 95 to the Nevada Interchange
Project Sponsor: Nevada Department of Transportation
Project Partner: Regional Transporation Commision of Southern Nevada
Senior Project Manager: Ryan Wheeler, P.E.
(702) 671-8876

Project Description:
- Provide connection between Phase I from north of the US 95 to tie into the Hoover Dam Bypass at Nevada Interchange
- Provide limited access bypass to the south of Boulder City for US 93 traffic
- 4 lane divided highway facility
- Require several bridge structures over existing access roads and to provide wildlife access
- NDOT working with RTC to administer Design-Build Procurement for Phase 2
- Project length: 12.5 miles
- Project was approved to be administered using Design-Build delivery method by the RTC Board of Commissioners following the passage of AB413 for fuel tax index Bill

Schedule:
Planning: Complete
Environmental: Complete
Final Design: 2015-2016
Construction: 2015-2018

Project Cost Range:
(Planning phase estimates)
Engineering: $15 - $25 million
Right-of-Way: $2 - $4 million
Construction: $225 - $300 million
Total Project Cost: $240 - $330 million

Project Benefits:
- Reduce congestion of US 93 through Boulder City
- Provide additional safety to existing US 93 within Boulder City
- Decrease travel time from Las Vegas to Nevada/Arizona border

What’s Changed Since Last Update?
- Schedule - RTC of Southern NV administering Phase 2 as a Design-Build Contract
- Las Vegas paving was the successful Design-Builder; a notice to proceed was issued on April 20, 2015
- Cost - $225 million was LVP bid to construct
- Majority of paving is completed, making connection at US-93 and punchlist items.

Project risks:
- Difficult design & construction issues in a mountainous terrain may affect cost & schedule.
- Final reports for NOA testing have been published and can be found on the main project website at www.i-11nv.com
- NOA mitigation has been determined and Contractor will follow an approved NOA Management Plan

Financial Fine Points (Key Assumptions):
- Total funding Expended: $126,333,726.38
- Total funding Expended for BC Bypass environmental studies (all phases): $5,199,679
- Inflation escalation (4%) is to 2016 approximate midpoint of construction.
- Federal Funding is covering majority of the work through reimbursement of RTC Southern Nevada using AB413 fuel tax indexing revenues advanced construction mechanisms

July 2018
### Project Description:
- This is the second and fifth phase of the US 95 Northwest Project that extends from Washington Avenue to Kyle Canyon Road.
- Alleviate congestion within the corridor by increasing capacity.
- Widen Durango Drive to Kyle Canyon Road to 6 lanes.
- Construct High Occupancy Vehicle Direct Access Ramps at Elkhorn.
- Construct a regional flood control facility from Centennial to Grand Teton.
- Provide new and improved freeway connections to improve regional connectivity, consistent with land use planning.
- Construct new interchange at Kyle Canyon Road.
- Project length: 2.45 miles.

### Schedule:

#### Planning:
- Complete

#### Environmental:
- Complete

#### Final Design:
- Complete

#### Advertise:
- Complete

#### Construction:
- Begin January 2018
- Complete 3rd Quarter 2020

### Project Cost Range:

#### Engineering (All Phases):
- $6 - $7 million

#### Right of Way (All Phases):
- $0, No acquisitions required

#### Construction (All Phases):
- $103 - $116 million

#### Construction (2B/5):
- $65 - $78 million

#### Total Project Cost (All Phases):
- $109 - $123 million

### Project Benefits:
- Increase capacity
- Improve safety
- Improve access
- Meet stakeholder/public expectations
- Reduce trip times
- Reduce vehicle emissions
- Reduce idling
- Beautify the corridor
- Improve driver comfort

### Project risks:

- Unit price escalation may affect project cost
- Complex design issues may impact schedule and scope
- Complex utility issues may impact schedule and cost

### What's Changed Since Last Update?
- Scope - No change
- Schedule - No change
- Cost - No change

### Financial Fine Points (Key Assumptions):

- Total funding expended for Phase 2: $63.26 million
- Total funding expended for US 95 Northwest Environmental Studies (all phases): $5 million
- Inflation escalation (2.27%) to midpoint of construction in 2018.
- Funding source for Phase 2B/5:
  - Federal: $42.4 million
  - State: $2.2 million
  - Local: $33.4 million

US 95 Northwest - Phase 3C
Clark County 215 Interchange
Project Sponsor: NDOT, City of Las Vegas and Clark County
Senior Project Manager: Jenica Keller, P.E.
(775) 888-7592

Project Description:
- This is the third phase of the US 95 Northwest project that extends from Washington Avenue to Kyle Canyon Road
- Construct new system to system interchange at CC 215
- This third phase is anticipated to be constructed in 3 subparts (A, C and D/E)
- Phase 3C: Ramps providing north to west, south to east and south to west movements

Schedule:
Planning: Complete
Environmental: Complete
Final Design: Complete
Advertise: Complete
Construction:
Begin 2nd Quarter 2018
Construction: End 4th Quarter 2020

Project Cost Range:
(Final Design Phase Estimates):
Engineering (All Phases): $14 - $15 million
Right of Way (All Phases): $0 - $1 million
Construction (All Phases): $180 - $221 million
Construction (3C): $44 - $61 million
Total Project Cost (All Phases): $194 - $237 million

Project Benefits:
- Increase capacity
- Improve safety
- Improve access
- Meet stakeholder/public expectations
- Reduce trip times
- Reduce vehicle emissions
- Reduce idling
- Beautify corridor
- Improve driver comfort

Project risks:
- Unit price escalation may affect project cost
- Complex right of way and utility issues may impact schedule and cost

Financial Fine Points (Key Assumptions):
- Total funding expended for Phase 3: $58.03 million
- Total funding expended for US 95 Northwest Environmental Studies (all phases): $5 million
- 3C: inflation escalation (2.30%) to midpoint of construction 2019
- Funding source:
  - Federal: $18.4 million
  - State: $5 million
  - Local: $35.5 million

21
The Reno Spaghetti Bowl

180/ I580/ US 395 System Interchange

Project Sponsor: NDOT
Project Manager: Dale Keller, PE
775-888-7603

Project Description:
- Freeway capacity, safety, and operational improvements to and surrounding the spaghetti bowl interchange
- Freeway access management improvements
- Service interchanges modifications
- I80 limits: Virginia/Sierra/Center Street Interchange to Pyramid Highway Interchange
- I580/US 395 limits: McCarran/Clear Acre Interchange to Virginia/Kietzke Interchange

Schedule:
- Environmental: 2017 - 2021
- Design and Right of Way: 2021 - 2025
- Construction: 2025 and Later

Project Cost Range:
- Engineering: TBD
- Right of Way: TBD
- Construction: TBD
- Total Project Costs: TBD

Project Benefits:
- Improve freeway safety and operations
- Reduce existing freeway congestion
- Accommodate current and future travel demands
- Improved freeway maintenance

Project risks:
- Complex access management strategies
- Railroad
- Truckee River
- Socio-economic environment
- Fragmented Local Network
- Right of Way
- Historical and cultural impacts
- 4f and 6f impacts

Financial Fine Points (Key Assumptions):
- N/A

Environmental (NEPA Phase)

July 2018

What's Changed Since Last Update?
- Scope - No changes
- Schedule - No changes
- Budget - No changes

Project Sponsor: NDOT
Project Manager: Dale Keller, PE

**Pyramid Highway/US 395 Connection**

**Project Sponsor:** Washoe County RTC and NDOT  
**Washoe RTC Project Manager:** Doug Maloy, P.E.  
**NDOT Project Manager:** Pedro Rodriguez, P.E.  
www.pyramidus395connection.com  
Phone: (775) 888-7320

**Project Description:**

- Calle de la Plato to La Pasada - Transition from 4 Lane Arterial to 6 lane freeway  
- La Pasada to Sparks Blvd. - Develop Pyramid alignment into 6 lane freeway with frontage roads.  
- Continue 6 lane freeway from Sparks Blvd. to Dics Dr. either on the Pyramid alignment with frontage roads or on a separate alignment to the west.  
- Extend 6 lane freeway through Sun Valley to US-395  
- Widen and improve Pyramid highway from Disc Dr. to Queen Way  
- Widen and extend Disc Dr. to Vista Blvd.

US 395 Carson City Freeway - Phase 2B
South Carson Street to Fairview Drive

Project Sponsor: NDOT
Senior Project Manager: Jeff Lerud
(702) 671-8865

Project Description:
- This project will be delivered in four packages. Construction is complete for Phase 2B Packages 1, 2 & 3.
- Phase 2B Package 4 will construct the South Carson Interchange and complete the remainder of the project

Schedule:
- Planning: Complete
- Environmental: Complete
- Final Design: Complete
- Construction: TBD

Project Cost Range:
(Final design phase estimates):
- Engineering: $11 - $13 million
- Right-of-Way: $30 - $32 million
- Construction: $100 - $150 million
- Total Project Cost: $137 - $190 million

Project Benefits:
- Relieve traffic congestion on Carson Street through Carson City and local streets along the freeway corridor.
- Reduce travel times through the region.
- Provide flood control protection.
- Improve opportunities for economic development along the corridor and downtown.

Project risks:
- Project completion date will depend on the availability of funds.
- Concurrent utility relocation will be required.
- Changes in design standards could affect schedule and budget.
- New development along the corridor.

Financial Fine Points (Key Assumptions):
- Total funding expended: $195 million
- Construction funding source for Phase 2B-4: TBD

What's Changed Since Last Update?
- Scope - Package 4 will complete the remainder of the Freeway
- Schedule - TBD
- Cost - No change

% Design Complete 0 100
% ROW Complete 0 100
% Construction Complete 2B-1, 2B-2, 2B-3 0 100
% Construction Complete 2B-4 0 100

July 2018
4.0 COMPLETED MAJOR PROJECTS

As a part of the reporting requirements in Section 55.5 of AB 595, the Department is to report the number of major projects for which construction was completed during this quarter. For each completed project, the Department is to report on the following:

1. Whether the project was completed early or on time.
2. Whether the project remained within its planned scope.
3. Whether the project was completed for less than or for the amount of its budgeted expenses.
4. Any specific measures of transportation improvement resulting from the project.

For the quarter ending June 30, 2018, two major projects were closed out: I15 Urban Resort Corridor and I80 Robb to Vista.

I15 Urban Resort Corridor: The I15 Urban Resort Corridor is closed out because it has been completed or broken out into smaller projects. I15 South Design Build, completed the I15 Urban Resort Corridor from Tropicana Avenue through the I15/215 system interchange; Project NEON is currently in construction and being reported under another major project page called “Project NEON Design-Build”; and the remaining portions of the I15 Urban Resort Corridor is in the NEPA Phase (I15 Tropicana NEPA Project) or soon coming out as a feasibility study: I15 from Sahara Avenue to Flamingo Road.

I80 Robb to Vista: The I80 Robb Drive to Vista is closed out because it has been completed or being tracked by another project. The I80 Robb to Vista Design Build project was completed in the first quarter of 2013. It constructed operational improvements from Robb to Vista, installed ITS infrastructure including four ramp meter locations, replaced several miles of deteriorating concrete, and installed landscape and aesthetic improvements throughout. The I80/US395 system interchange (The Reno Spaghetti Bowl) is being tracked under another major project page called “The Reno Spaghetti Bowl”.
