Summary
Locations of meteorological stations "Road Weather Information System" sites in Nevada.

Description
Developed to augment the NDOT road network. RWIS is a unique system consisting of numerous meteorological stations strategically located alongside the highway that allow NDOT to make more informed decisions during winter storms.

Credits
The Location GIS department of the Nevada Department of Transportation.

Use limitations
Requestor hereby releases the Nevada Department of Transportation (NDOT), their agents, consultants, contractors or employees from any and all claims, actions, or causes of action for damages including, but not limited to any costs of recovering, reprogramming or reproducing any programs or data stored in or used with the GIS data.
