QPL DB1 NOTES
September 17, 2009

Contractors are required to use actual dated Qualified Products List (QPL) products specified and listed in the contract Special Provisions under the "Notice to Contractors." This dated QPL is distributed to the contractors along with contract documentation.

The QPL is compiled by the NDOT Research Division. Products will remain on the QPL as long as their performance is satisfactory; poor performance in the field will result in suspension and/or removal at any time from the QPL, as per established NDOT product evaluation procedures. Any modification of material, composition or configuration of a product or change in manufacturer's name and address should be conveyed to the NDOT Research Division in a timely manner. Failure to disclose this information may result in suspension of approval and/or removal from the QPL.

The evaluation of a product listed on the QPL does not constitute an endorsement by the Department nor does it imply a commitment to purchase, recommend, or specify the product in the future. Testing and certification of specific products remains in effect regardless of the status shown in this list.

If you have any questions regarding QPL and/or product evaluation process, contact Roma Clewell, Product Evaluation Coordinator, via email at rclewell@dot.state.nv.us or by telephone at (775) 888-7894.
