OVERVIEW

Curb and Gutter Items have different documentation requirements for each unit of measure (UOM). All Curb and Gutter Items must be measured, calculated and/or based on plan. Documentation examples for a few selected Curb and Gutter Items are illustrated in this chapter. Some minor modifications may be required to show the unusual circumstances that may occur with different items, but the general format should be followed. If there are items which cannot be documented according to the following examples, contact the Construction Admin Services Section for assistance.
